

Kollicoat® Products – Designed to Be Safe

Sustainability needs

Increase resources efficiency and reduce waste

Minimize emission into the environment and biodiversity impact

Ensure employee and patient health, safety and wellbeing

Access and affordability of medicine

Ensure cost efficiency and long-term business success

More sustainable coating process

Sustainability contribution e.g.

Process efficiency

Easier and faster to handle, reduced formulation complexity

No plasticizer needed (e.g. Kollicoat® protect)

Cost efficiency

Flexible production and improved productivity → up to 60% lower costs for tablet coating material and processing

Storability

Storable in different humidity conditions and defect rate reduction (e.g. Kollicoat® protect)
