

Kollidon® Products – Combining Tradition with Innovative Solution

Sustainability needs

Increase resources efficiency & reduce waste

Minimize emission into the environment & biodiversity impact

Ensure employee & patient health, safety & wellbeing

Access & affordability of medicine

Ensure long-term business success

More sustainable binding process

Sustainability contribution e.g.

PeroXeal packaging:

Aluminum-free

Stable formulation and product quality

Supporting dry-binding process

Improved process: no solvent & drying, no reaction risk of API

Supporting an efficient HME process

Better processing

Improved bioavailability

Formulation for shelf-life extension
